

Devotion

No place for the angels
No place for the song birds
They will never come
No love no devotion
They will never come
Well on the highways
Well in the blue screens
Well in the cloud
But so much place for emptiness

Can anybody help me find a way to change
Can anybody stop my lies

We search for an answer
We wait for a sparkle
They will never come
Great place for illusions
They will never end
Back to the trees now
Back to insanity
Time to go back
I hope tomorrow I'll be gone

Can anybody help me find a way to change
Can anybody stop my lies

Please take me with you
