

The cave

Coming in the plains, walking in the mountains
Following you , following me
Searching for a cave, searching for the black deep
Where there's nothing to do, nothing to see
I keep searching
Show me places to discover where nobody will go
I just wanna hear my heart beat now

I just wanna hear this sound, this sound,
I wanna hear this sound where nobody will go

Cutting the ferns, following the black roots
Exploring you, exploring me
Try to find a hole, leading to the black space
A parallel world, a heaven near me
I keep searching
Show me places to discover where nobody will go
Guide me to the hall of silence where nobody will go
I just wanna hear my heart beat now

I just wanna hear this sound, this sound,
I wanna hear this sound where nobody will go
